ABOUT ME

Positive and motivated software developer with knowledge across several languages and modern development practices. Curious, always learning, and thriving in teams using agile methods.

WORK EXPERIENCE

Care Worker | Kongsberg Kommune

Jun 2024 – Present | Kongsberg, Norway

- Being a care worker is an experience I believe everyone can benefit from, as it is deeply character-building. My responsibilities include preparing meals, assisting with dressing, and ensuring that the correct medication is given and consumed. In addition, I focused on providing a fulfilling daily routine through meaningful activities and regular exercise.

Intern | Omnimod AS

Aug 2024 – Des 2024 | Oslo, Norway

- At Omnimod AS i provide help in the creation and testing of their AI-based packaging unit. Creating smaller modules, testing and seeing how the team works is a great experience for a curious developer as myself.

Summer employment | Meny Stortorvet

Jun 2022 – Aug 2023 | Kongsberg, Norway

- Working mainly at checkout gave me responsibilities as making sure everything regarding payment went smoothly and making sure sales of 18+ products was properly handled.

Part-Time | The Green Deal

Oct–Dec 2021 | Oslo, Norway

- Writing product descriptions was a great opportunity for me to show my creative side and experience what attracts consumers.

EDUCATION

Informatics: Programming and System Architecure | University of Oslo

Aug 2021 – 2025 | Oslo, Norway

- Bachelor in Informatics: I studied Informatics because I enjoy the mix of challenge and creativity. While my degree is based around object-oriented programming and systems security, I used my 60 elective credits to focus on algorithms, AI/ML and semantic technologies.
- I have received good fundamentals in programming practices, learning new technologies and working in a team.

High School | Kongsberg Videregående skole, Science

Aug 2018 – Jun 2021 | Kongsberg, Norway

- GPA: 4.7
- Subjects: Physics I–II, Information Technology I–II, Mathematics (R1–R2), Management Accounting
